WATERFRONT NEWS

Tenyo Here in Forenoon.

At about 10 o'clock this morning the Toyo Kisen Kaisha liner Tenyo Maru will be off port from San Francisco and may be in the harbor by 11. The vessel has a large through list of passengers, and a small freight for Orient ports. The vessel may be dispatched for Yokohama late this afternoon.

Island Blowing Away.

Quarantine Island appeared to be in the very center of a Sahara sand storm all day yesterday and frequently the entire island was hidden from view. From the upper sections of the city residents at first thought, when looking toward, that a great fire was in progress, owing to the heavy yellow cloud ascending skyward. The sand and dust were blown in terrific gusts and probably a good deal of the island surface has been blown into the sea.

Collier Off for Japan.

At 6 o'clock yesterday morning the British collier Vancouver departed for Mikie, Japan, to take on a load of coal for a British destination. The Vancouver discharged over 2000 tons of coal here for the navy department. This is the last of the British steamers chartered to bring coal here from Norfolk, for the present. The department at Washington has under consideration the plan of depositing 100,000 tons of coal at this place for the use of the navy.

Simerson on Vacation.

SEND ONE AWAY.

One of the most beautiful of the annual attractions in Honolulu is the floral parade on February 22. This year the cars and floats were decorated with such exquisite taste that they were praised by many hundred tourists who were in the city and who viewed the procession. Official photographers made pictures of all the best of which were selected by the committee in charge and published in pamphlet form by the Hawaiian Gazette Co., Ltd. These are on sale at the Advertiser office, on King street between Fort and Bethel, at twenty-five cents each. The postage on a copy is three cents to any part of the world.
